### 2015 National Show in Western Australia.

Congratulations to our Members who were successful at the Logan Shield and then represented South Australia in the ANBC Championships in Mandurah.

Two BSSA members achieved first placings in a field of 21 birds. Kelwyn Kakoschke won the Clearwing and Opaline AOSV classes and Wayne & Jason Weidenhofer achieved their maiden victory in the Clearbody class.

In addition, other exceptional results from the BSSA members were:

- Kakoschke & Rice 2<sup>nd</sup> in the Grey Greens, 2<sup>nd</sup> in Clearwings, 3<sup>rd</sup> in Spangle Double Factor, 2<sup>nd</sup> in Spangle, 2<sup>nd</sup> in the Spangle AOSV Class and 5<sup>th</sup> in the Hens Classes.
- Dennis Lomman 3<sup>rd</sup> in the Violet Class.
- George & Bev Jones 7<sup>th</sup> in the Violet Class.
- Wayne Bandt 7<sup>th</sup> in the Greywing Class.
- Malcolm Loveridge 7<sup>th</sup> in the Albino Class.
- George England 7<sup>th</sup> in the Dominant Pied Class.

The above 3 class wins at ANBC level take the BSSA total to 68 wins in the 41 year history of the National Competition. Full results from the ANBC are on the ANBC website, and the complete list of class winners is printed in the Digest.

# Ron Norman Annual Show & Brasea State Show.

In early July, the BSSA held our Annual Show and Brasea State Show at the Vermont Hall. The day ran extremely smoothly and many members supported our Show Manager to ensure another successful event.

The Clearbody Cock exhibited by Jason & Wayne Weidenhofer at the ANBC Show was a deserving Grand Champion, with our guest judge Neale Love from South Queensland very complimentary of our Show and the birds benched.

Following the judging and lunch, Neale hosted a question and answer session where we had the opportunity to learn about the budgie scene in Queensland.

The BSSA extends it thanks to our Show Manager – Wayne Weidenhofer for the tremendous amount of pre work put into our Shows and the members who participated and supported us on the day.

## Monthly meeting – Tuesday 4 August 2015.

On Tuesday 4 August at 8pm we will be holding our monthly meeting at the Sturt Street Community Centre.

Our entertainment is scheduled to be a presentation on the recent ANBC Show and a summation of the delegates meeting.

No birds are scheduled to be exhibited at this monthly meeting.

All members are requested to bring some supper for sharing at the completion of the meeting.

### Monthly meeting – Tuesday 1 September 2015.

Our September meeting will be the 2015 President's Cup.

The rules for the Cup for 2015 are simple but challenging. Members are asked to bring a hen and cock along (separate cages) with the ring number of the birds benched ending in the number 5.

The age of the bird is irrelevant, but the ring number must end in a 5.

A separate flyer will be emailed to our members closer to the date with a reminder of this year's event.

#### Vale – Andrew Stock

In late May, we were all deeply saddened to learn that Andrew Stock passed away in the Flinders Medical Centre.

Andrew had been a member of our Club for only a couple of years, but had been a long term member of both the Port Pirie and North East Budgerigar Clubs. Andrew had also recently taken on the role of Treasurer of the BCSA.

Andrew was a young member in our hobby, but was determined to progress from Novice to Intermediate and then set his sights on achieving promotion to the Open classification which he achieved at this year's Logan Shield.

Andrew was also passionate regarding the future of our hobby and was always looking for opportunities to progress the fancy and improve the friendship between members of our Clubs.

He will be very much missed.

# BSSA Ron Norman/Brasea State Show 2015 Saturday 4 July

Major Award Judge: Neale Love 'BRASEA' Judge: Kelwyn Kakoschke, JohnRice Class Judges: Kerry Murphy, Stephen Elliott, Ian McEwan

### **SHOW MANAGERS REPORT**

It's certainly been a busy time with the Nationals, shows, auctions and the breeding season upon us. Congratulations to those who had success at the State pre selection show and in the Nationals held in Western Australia.

The Ron Norman Annual/Brasea State show produced better than expected numbers and more than previous years with 265 being benched. We lost a team of birds with last year's Champion Vicki Sanford on the flu recovery list.

Once again thank you to all the membership for a truly magnificent effort which resulted in a successful and busy show. Congratulations to all the major award winners. Neale Love finished the day off well with a very interesting talk on the hobby in Queensland which created a real interest to the members on the day.

Our Major Award judge Neale Love and his wife Karen had a busy but wonderful time in Adelaide. They were amazed at the Sue Adams story in 45 minutes. Saturday culminated with Judging, an aviary visit to Kelwyn's, a trip to Victor Harbor and back to Old Noarlunga for tea with Jim Butterworth and Maria Stone. Up early on Sunday for a trip to the airport. They enjoyed their visit and regret not staying on to associate with other members.

The second and third tickets issued by the stewards after judging seems to have been accepted at both shows and it has certainly taken the pressure off ticket writing. If anyone has any ideas which they would like introduced the show manager and committee would be more than happy to consider them.

We now concentrate on our breeding programs and I wish everyone the best as the combined NEBS/BSSA Interclub challenge is not far away. Lets keep the trophy in our cabinet.

Wayne Weidenhofer - BSSA Show Manager

#### BIRD CARER REPORT FROM THE MANDURAH NATIONAL SHOW 2015

The three SA bird carers for 2015 were John Mulley, Ian Marshall and Doug Lange. Twenty three of 29 exhibitors at the Logan Shield had at least one bird selected in the 80 strong Team that we took away. The 22 birds from one exhibitor formed the backbone of the Team. Spotting is an essential part of exhibiting budgerigars and most exhibitors complied to the extent that we requested on the show schedule. Spotting was of a very high standard from some exhibitors but a few made no attempt. Some did not use the entry form supplied with the show schedule to enter their birds, some do not supply ring numbers and some omit their required personalised ring code when they do supply their ring numbers meaning that the volunteers who manage the show have to waste their time chasing up these details.

Use of the reserve set of BCSA carry cages for transporting the Team from the Logan Shield to the holding area greatly simplified this operation. This and drop off of the remaining birds the day before departure went smoothly. All birds were chirpy with firm tails with none scratched before departure.

The expanded Team (now up to 81 birds with extra classes and three birds benched) were comfortably accommodated in the new and larger BCSA travel cages. Potential flight' delays will no longer be a worry for us now that the birds have adequate space to be accommodated for an extended period. The BCSA hired an SUV at Perth airport

to provide own transport to minimise delays between the airport and the national show venue and to facilitate Bird Carer movement between accommodation and the show venue given the early starts and distance between accommodation and the show venue.

One bird had to be scratched on show day. Multiple blood feathers concealed under a layer of mature cap feathers had ruptured during travel and it wasn't possible to repair the damage to enable that one bird to be benched. We notified the owner on the day. SA was the only State/Zone unable to bench three darkeyed clears as this composite variety hasn't caught on in SA. The extra birds and extra classes necessitated splitting the benching and judging of birds on the first day into morning and afternoon sessions with only an hour changeover to clean cages and bench the afternoon set. This was hectic but achievable with good organisation from the show officials and the Bid Carers from all seven States/Zones.

The SA birds in most classes were generally placed in the same order as judged at the Logan Shield, allowing for the fact that similar birds closely positioned at one show can easily swap positions at the next show. Judging of the crest class against the new Crested Standard was educational. Apart from crests needing to be centrally placed full circles, their feather density within the crest has to be such that there is no longer any doubt about it being the most prominent feature of the variety. Similar corrective actions to other parts of The Standard might be useful to reinforce varietal features in some of the other classes. Every bird gets a 'rosette which makes it a challenge to bring 80 rosettes back without incurring excess baggage costs. SA is only next door to WA but despite that it was noticeable that our state had very few supporters attending the show.

Pickup of birds went smoothly back in Adelaide with everyone collecting their birds when they said they would. SA will be down one of the regular away Bird Carers for Hobart next year, so that provides an opportunity to introduce new blood. The replacement needs to be able to spot and manage birds, or be enthusiastic enough to learn and to contribute with the aim to become a regular member of the Team. Someone from within the group of 23 successful SA exhibitors at the Logan Shield would be a good place to' look for such a person.

To conclude, the standard of birds at Mandurah across all classes was extraordinarily high, possibly because the 2015 show birds were rung with black rings over two breeding seasons producing a larger than usual population of budgerigars from which to select for exhibition.

#### **BCSA PRESIDENTS REPORT 2015**

The year has been reasonably quiet post the 2014 National.

After 13 odd years as President of the BCSA it is time for me to step aside. The intent was to not hold any position going forward but due to the shortage of volunteers for most positions I will take on the Ring Officers role to guide the new arrangement through its infancy.

The passing of Andrew Stock was the lowlight of the year. Thank you to John Mulley for stepping in to get all treasury information in order for the AGM.

Doreece is retiring from the Committee - being on board since day one. A greater contribution you could not ask for. A sincere and deserved thanks to you Doreece.

Congratulations to Jason and Wayne Weidenhofer and Kakoschke and Rice on their wins at this year's National event.

The BCSA is in a sound position financially but this should not be taken for granted.

Peter Glassenbury has nominated for President and I wish him well in that role. This is the only nomination that we have received - other than the Ring Officers role noting those that usually hold positions are hopeful that others might nominate at the AGM.

We have not had an official Secretary since 2007 - this role I have reluctantly `held' during this period.: I trust someone from within the committee will step into this role

Thankyou to the full committee for your input this year. Yours in the fancy

Nigel Tonkin

#### **BCSA Treasurers Report 2015**

Income and expenditure for the operating account for the financial year 2013-4 is shown in the balance sheet. The balance brought forward was \$8277.81 for the account and the total income of \$63630.70 and the total expenditure of \$64789.81 giving a current statement balance of \$7118.70 in the operating account. Unpresented cheques totalling \$10.00 gives net operating funds of \$7106.70 in this account.

At first glance the increase in operating capital, year on year, of \$6408.04 suggests a sound year has eventuated, however this increase is mainly due to accumulated interest from the term deposit of \$3278.07 and receipt of funds from the Grand Chancellor for room commissions from the National event of \$3170.68 being brought into the, general operating funds.

The ANBC account, held separate to better understand the overall position of our event, has been closed and the balance of \$8582.65 reassigned to the general account. When injected funds are deducted, that was used for working capital a nominal profit was achieved for this event of \$118.43. Further payouts during the 2014-15 period sees the overall figure equating to a loss of around \$500 which was a creditable outcome overall.

Rings sales for 2014-15; periods suggests a loss however there are outstanding payments for this period that have been paid after 30th June and delayed due to the untimely passing of our treasurer.

Without income generated from our deposits the Council traded at an operating loss of \$1169.11 for the period and we must continue to be vigilant and cater for expenses with proven income before incurring the actual expense payment.

To ensure this occurs the interest from the investments should be allowed to accrue in the deposits to clearly indicate to all the general trading position of Council.

In all the year was a success and the Council remains financially viable to continue operations into the future.

John Mulley BCSA Temporary Treasurer 10/6/2015

#### Steady Progress is the way to succeed

"The quickest way to the top is to go to the leading breeders of the day, purchase birds, pair them up and you are made."

I would suggest that this is the major 'misconception of the day' - the reason why I say this is because many have tried it and most have failed. The rationality of why they fail is because, like with most other live-stock, their breeding results have been unpredictable and there has been insufficient knowledge to maxi-mise in their purchases.

In a recent editorial I spoke of the need for a mentor, someone that a Beginner can look upon as his 'local authority' and who is willing to give up time and to help him. This mentor does not necessarily have to be a Champion because like many other work and leisure activities, the most intensive learning period is during the early cycle of events. This is especially so for things such as show preparation, ringing chicks and dealing with minor disasters. Where they are not likely to have the experience is for the finer points of pair selection or dealing with serious problems such as a prolapse in a hen, for example. This is where, in the U.K. the Budgerigar Society Helpline can come into play or your more experienced Champion.

#### **Reserve birds**

The quickest way to become dis-illusioned with the hobby is to make what appears to be a certain, sure fire investment that falls flat on its face. The simple illustration of this can be seen when visiting any of the aviaries throughout the World during the breeding season. How many have their breeding pairs in the cages with virtually no reserve birds flying in the flights. So O.K., some may be there for noise generation

but you can bet your life that the majority will be there as back up breeding birds, to replace those that fail.

It is therefore hardly surprising when that expensive pair that was purchased recently, fails to re-produce, - the law of averages are clearly weighted against you. To make matters worse, the more highly bred the birds are and the better the quality, the more temperamental they are likely to be in the breeding cage.

### Limit your purchases

The point that all this leads to is one of the reasons for structuring the exhibiting ranks as they are - to enable competition amongst exhibit-ors with similar experience and a similar standard of bird. It is my view that Beginners and Novices that consistently win Best in Show awards in top competition, should be compelled to show as Intermediates as a minimum requirement. If this follows then Beginners should pur-chase stock from Novices, Novices from Intermediates and Inter-mediates and Champions from Champions. In this way there is movement of birds created within the hobby, there is an improvement in quality as the ranks progress and as you acquire higher bred birds that are more difficult to reproduce with, so your experience has also in-creased to deal with this complication. Unfortunately, the only market that the Beginner has is to the pet trade, but this is often the case anyway.

An Ideal World, you may think, but one that would perhaps keep the hobby in perspective and retain fanciers throughout all levels. Unfortunately, also a non-starter because as often as not, money talks louder than common sense.

\*\*\*\*\*

# "WATCH THE WATER", SAYS DERRICK BOWLEY

In my opinion all fanciers should take as much care with the water they give their birds as they do when selecting their seed. I am quite sure that no fancier would provide their stock with inferior or unclean seed, yet the same care does not always appear to have been taken with the provision of water.

In some aviaries I have visited the water fountains have been discoloured with green algae. It would seem that provided that the birds have some water, that is all that matters. Another point that I would make is that when fanciers purchase new stock, they frequently enquire as to the methods of feeding but never ask about the water supply. This supply quite often varies from area to area, it can be hard or soft and may or may not contain fluoride. I am not sure that all of it is good for birds to drink and would like an experts opinion on this point.

Cleanliness is essential and the water should be changed at least every two days. During the breeding season and throughout the summer months, as far as I am concerned daily changing is of utmost importance.

#### Dead in shell

In my area the water is very hard. Kettles and other utensils have to be de-scaled on a regular basis. At one time, years ago, most homes used to have a water softener in the kitchen and this made a tremendous difference, with the end product being a beautiful soft water supply. I mention this because when I came out of the Royal Air Force and restarted with Budgerigars I had a large percentage of dead in shell and noticed that the shells were really hard. It was little wonder that the chicks could not break out.

I had joined the Burton-on-Trent CBS about the same time and discussed this problem at one of our meetings. One of the older generation of Canary breeders soon put me right with some excellent advice, as I was told that hard shells were due to the local water and that if I used boiled water, this problem would soon disappear. The advice was very prophetic and proved correct. I had very few dead in shell cases the following season and this is a practice that I have kept up even to this day. A gallon container of boiled water is always available in the kitchen.

The initial part of this experiment was carried out with rain water, as most householders in those days had a water tub to catch the rain water. These tubs have long gone and modern plumbing takes the rain water straight into the drains. I am a great believer in using boiled water and the number of dead in shell chicks is minimal.

With regard to putting additives in the water, I am-not too keen on this, but do admit to adding vitamin drops to the water about two months prior to the start of the breeding season.
