JUNE MEETING – Tuesday 3 June 2014 @ 8pm start.

PRESIDENT'S CUP

Our June meeting will be the President's Cup for 2014. Given the number of shows held in May and June, we have decided to ask members to bring in two of their oldest show birds for the competition.

The winners will again receive the collector's edition "President's Cup", which have been listed on google as rare and highly valued collector's items.

This meeting will also give us the opportunity to review the Breeders Show held in mid-May, the upcoming Logan Shield and Ron Norman Annual Show scheduled for 5 July.

LOGAN SHIELD – Sunday 15 June 2014.

All members are reminded of the Logan Shield which will be held on June 15. Entry forms have previously been emailed directly from the BCSA with entries closing on Sunday June 8. Full details were previously emailed by the BCSA in April. We have additional entry forms if any member requires another copy.

JULY MEETING – Tuesday 1 July 2014. 8pm start.

Tonight we will focus on the recent ANBC National Show that was staged in Adelaide. The BSSA members who attended the show will hopefully present slides and commentary on the show.

Bird of the Night for July will be:

- Class 1 – Clearwing ASC.
- Class 2 – Spangle Normal ASC.
- Class 3 – Any Other Variety.

BRASEA STATE CHAMPIONSHIP SHOW – Saturday 5 July 2014.

As part of the Ron Norman Annual Show held in July, the Brasea Championship Show for rarer varieties is included. This is truly a State show and any interested budgerigar exhibitor is able to enter birds in these classes or any other class in the show.

Any interested budgerigar exhibitor whether a BSSA member or not, is encouraged to enter their birds in the Ron Norman Annual Show. Please discuss this event with your "budgie friends", and get them to enter.

Peter Thurn, a massively successful Victoria exhibitor and judge will be our Major Award judge for the show. From Peter's website pt9 budgerigars, his profile makes impressive reading.

Ring Code - PT9
Commenced breeding 2003
Member of the Melton & District Budgerigar Society & Budgerigar Council of Victoria (BCV) Senior Panel Judge
Achieved Champion Exhibitor Status in Victoria in 2009
Varieties Bred: Normals, Cinnamons, Opalines, Dominant Pies, Spangles, Texas Clearbodies, Fallows, Albinos, English & Australian Yellowfaces
6 National Wins: Albino (2008), Dominant Pied (2009), Texas Clearbody (2009), Fallow (2009), Texas Clearbody (2011 and 2012)
6 National Placings: Dominant Pied (2nd, 2009 - brother to winner), Grey Green (2nd, 2011) Fallow (3rd, 2009), Albino (3rd, 2011 - full brother placed 4th) Albino (2nd 2013), Spangle (3rd, 2012)
25 birds selected to represent Victoria at the ANBC National Show. 21 birds benched
22 BCV Shield Wins: Grey Green (x3), Albino (x3), Fallow (x7), Dominant Pied (x2), Texas Clearbody (x5), Light Green and Double Factor Spangle.
3 Diplomas (Best Young Bird in Show): Kyabram 2008 (Double Factor Spangle), Melton 2009 (Opaline) and Geelong 2011 (Dominant Pied)
1 BCV Shield, Best in Show: Adult Shield 2012 - Grey Green.

2014 BLACK RINGS

As our members will be aware, the 2014 black rings will be issued until 31 December 2014. The BSSA currently has approximately 900 rings available for our members to purchase. Whilst members may still have some rings left over from earlier this year, we have no idea of the demand that will be required for the balance of 2014 due to the extra 4 months of this ring issue date. To complicate matters further, Chapman Rings have indicated they will continue to produce rings until the end of 2014, but in reality this cannot be 100% guaranteed.

In short, we are urging all members to purchase the black rings they require for the balance of 2014 as soon as possible. This will allow the club to keep ring stocks as accurate as possible and hopefully no one will miss out.

2015 RED RINGS

This brings us to the issue of the 2015 red rings which will be available from 1 January 2015. The 2015 rings will be the first rings sourced from the European supplier and there are some conditions of purchase for 2015. The Clubs may only have one opportunity to order rings, although the possibility of a second order does exist. Below is an extract from the official ANBC letter detailing the procedures for the clubs and their members.

Continued next page...

*"No more than **TWO** bulk ring orders will be made for 2015 rings.*

Rings will only be encoded with an ANBC symbol and a State or Zone symbol along with the numerals for this issue.

State or Zone Ring registrars roles will remain unchanged however they will liaise with a National Ring Registrar (to be appointed) in submitting orders.

The National Ring Registrar will be the sole point of contact with the ring supplier given issues of exchange rates, GST, import and customs duties and collection of the ANBC ring levy.

June 2014 – Clubs will send orders to State Ring Registrars (numbers are to include those that would normally have coded rings)

June 30th – all orders to be with State/Zone Ring Registrars and forwarded to National Ring Registrar electronically with funds forwarded on an official ANBC Ring Purchase Order.

July 31st – all orders collated by the National Ring Registrar and dispatched to the ring supplier for manufacture.

September 30th – rings to be received by the National Ring Registrar from the supplier sorted and ready for dispatch to States / Zones.

October 15th to 30th – rings to be dispatched to State Ring Registrars for club distribution in line with initial ring orders.

Late December – rings distributed to members by State/Club Ring Registrars.

Any subsequent order would also be under a bulk process however the correctness of the initial order may negate this requirement. Costs also cannot be guaranteed for subsequent orders and may incur a penalty.

The Executive cannot over emphasize the need for careful consideration when addressing the initial ring order volumes to ensure adequate rings are held to cover all contingencies."

The BSSA will place our order based on 2013 and 2014 sales history, but with the uncertainty surrounding the final 2014 numbers, some estimation will be required. The BSSA does not currently have a 2015 Ring Order Form as we are not certain on final pricing, however members are able to guarantee their 2015 rings by individually contacting our Ring Steward with their requirements prior to 30 June 2014.

BSSA Breeders Show 2014

Saturday 17 May

Major Award Judge: Ian Marshall
Colour & Variety Judges: Barbara Fisher, John Mulley
Glenn Stearnes, Stephen Elliott

Birds Entered: 365

Birds Benched: 313

GEOFF SMITH TROPHY - Best Dominant Pied	J & W Weidenhofer
MARIE & KERRY MURPHY TROPHY - Best Danish Recessive Pied	M & K Murphy

SHOW MANAGERS REPORT

The Stan Watson Breeders Show produced record numbers of entries with 313 entries being benched and with 35 auction birds the hall was to capacity.

Once again thank you to all the membership for a truly magnificent effort which resulted in a successful and busy show after a slow start. When you think you have all angles covered Australia Post fails to deliver.

Congratulations to Kerry & Marie Murphy who presented a very strong team this year winning numerous awards including the Grand Champion. A really fitting result for the amount of work these two have done over the years.

Congratulations to Andrew & Lucy, Wayne Bandt and all the other award winners but I think everyone was a winner with the objectives of the BSSA being met to a high standard. With promotion and relegation the club is slowly becoming more balanced and stimulated in the exhibition of budgerigars.

One disappointing aspect is the number of birds being entered across all sections which are being wrong classed. With a little more care and thought those birds could have won awards. With the number of entries at record levels please consider helping Chris Murphy and Ian McEwan with set up on Friday nights.

The Ron Norman Annual and Brasea State Show will see Peter Thurn as our Major Award judge. He is also our guest speaker and the reason the auction was brought forward this year..

It's certainly coming into a busy time with the Nationals in Adelaide, shows, auctions and the breeding season not too far away. To those fanciers entering birds in the State Team Selection Show all the best and lets win the Logan Shield competition.

Wayne Weidenhofer—BSSA Show Manager

United Birds Society of South Australia, April 2014 Newsletter.

POST ENTRY QUARANTINE.

The UBSSA received an invitation from the Department of Agriculture, Fisheries and Forests (DAFF) to attend an update meeting advising on progress being made in re-structuring the physical assets and proposed operational changes to meet requirements of post entry quarantine. The project is nearing the end of the third year of a seven year program. The meeting was held at the Old Adelaide Hotel in North Adelaide on 10 April 2014. A property of 144 hectares has been acquired (at Mickleham, Victoria) which is 20 minutes from Tullamarine Airport and some 31 km north of Melbourne. Construction work on the site commenced on 1 April 2014 and Phase I is expected to be completed by March 2015. It is planned to be operational at the end of 2015. Phase I will cater for horses, dogs, cats, bees and plants. Construction on Phase II (catering for birds, poultry and increasing the capacity for dogs and cats) is scheduled to commence in December 2016 and due for completion by January 2018. It is expected to be operational by the end of 2018. The capacity for the management of birds and eggs will be significantly greater in the new facility.

It can be expected that there will be an increase in user fees - the department stated there have been no fee increases since 2009

- fees will reflect the cost of operations
- it is not intended to recover capital costs through fees

The intention is to consolidate all post entry quarantine facilities across Australia into one site. Currently, there are 4 facilities - at Spotswood and Knoxville (Victoria), Eastern Creek (NSW) and Torrens Island in South Australia. Closures will occur at Eastern Creek in 2015 and Knoxville in 2016. Closure of the Spotswood and Torrens Island facilities (birds, poultry) will be dependent upon the completion of Phase II. All 4 of the current facilities are privately owned and are leased by the government. All leases will expire by the end of 2018 which gives the government the opportunity to consolidate its post entry quarantine operations to one site.

ALL WE WILL NEED THEN IS A RE-COMMENCEMENT OF LIVE BIRD IMPORTS TO BROADEN THE GENETIC BASE OF OUR AVIAN STOCKS.

Over 50 Years with Exhibition Budgerigars

The main aim of most budgerigar clubs worldwide has always been to increase size and type - these changed dramatically over my time in the fancy.

Some thirty years ago the most successful English breeder Harry Bryan told me and Neville Seage that many breeders breed budgerigars to their own stature.

As for being a good judge Harry said you have to breed them to know them as well as having a well trained eye to pick out the imperfections in each individual.

Light Green from a Victorian stud - 2014

The way I see it today and as well as in the past.

In the late fifties the ring issue date was July the first. The major two day BSA shows staged in the lower Sydney town hall were always held early May.

This annual show used to attract over **2000 entries** and one might also add you could exhibit purchased young and old birds however only in the old bird classes. I also remember up to 600 birds being shown at the early St George branch monthly meeting table shows.

A packed hall would also be there to hear the guest speaker who would also give sought after information to individual members that lined up after the official meeting closed.

Rarely today would one see a get together of breeders in a fancier's back yard looking and discussing how to improve ones birds so essential for any progressive breeder. Therefore most beginners today do not have the luxury of being given any birds for free together with

guidance and practical information from proven established breeders.

What many experience today is not unlike the spiel of some used car salesmen which in turn may help many potentially good members to leave the fancy.

There appears also to be a trend to promote the lesser varieties in quantity not quality.

Included in most informative writings and also advised by successful breeders both here and overseas is that one has to have a good stud of normal's to enable one to improve all other varieties whether it be type, colour or feather. This is especially so in the lesser varieties.

I have never exhibited in a national show because of personal reasons although one often wonders why they have not included more normal dark factor classes into the national show.

This would not only be an advantage in increasing numbers but also preserving their individual characters thus providing the essential **Stock Birds** to improve colour and feather in most varieties.

Clearwing Olive Photographed by Harry Nott of NSW in 1962

When top English breeder and judge the late Alf Ormerod gave a talk in the early eighties at the hills branch he commented on the silly little perches in our show cages.

His thoughts were a good sized bird with decent claws could not grip the perch properly to exhibit themselves to their full potential in the show cage. After all this time and the importation of English budgerigar we now have larger perches.

The powers to be in Australia may be reversing this decision to go to a smaller perch again; maybe this will be very useful for miniature budgerigars.

Dick Mathews, who lived not far from me at Sydney, established the Australian Yellow Face variety to perfection. His Yellow (GOLDEN) Faced visuals were spectacular with the yellow being confined to the face only and no green suffusion in their body or wing colour, Good

Yellow Faced Sky's in this variety were few and far between.

Frank Gardner used to pair up a lot of Australian Yellow Face for Melbourne fanciers with breeders such as Mrs Fellows breeding two of the best Australian Yellow Faced Sky's I have ever seen.

Brian Dadd and Bryce Gringlington in Melbourne must have bred thousands of these birds however many were not what the Standard stated for a show bird, the rest were stock or pet birds. Bryce would have been the first to breed Golden Faced Violet Spangles which were SPECTACULAR to see.

Bryce Gringlington – 1978 - Golden Face

The normal Violet has been added to the National classes. **The Standard** describes the bird is to be a "Visual Violet". It is somewhat difficult to judge bad coloured Cobalt's and some Violet Sky's (Violet Sky was always a stock bird not a show bird) in Violet classes. This problem was highlighted at the 2013 Nationals when a Violet Sky won the visual Violet class. Currently Sky Violet and Cobalt's are shown in "blue class" at state and National level.

One also hears there are discussions in relation to the alteration of the colour wordings of the Spangle Double Factor. This I hear has the intent to include shades of grey green and grey and no doubt it would have to include green and blue hues.

One of the first Spangle Double Factor bred by Frank Gardner, which I still have a slide of, was a pure yellow Spangle Double Factor. Quite frankly one only has to have A STOCK BIRD CALLED A CINNAMON WING SPANGLE which many are told to dispose of to breed a pure yellow and white Spangle Double Factor.

Exhibitors like Jo Mannes would be horrified about the suggested shade colour change after all the colour yellow is not grey green yellow and neither is the colour white grey white.

Champion Bird at Hills 2009 - John Scoble

In regards to a stock bird these birds generally excel either visually or hidden with their minor or major modification which will improve any feature visually on an exhibition budgerigar. One could also suggest that you ask Bruce Sheppard or Colin Flanagan as to how many stock birds they use to produce a national winning crest.

Furthermore it would be most interesting to see what changes would occur, especially in judging, if the importation of overseas budgerigars was opened up again so some of the judges and exhibitors alike could acquire new breeding stock enabling them to breed a decent exhibition budgerigar for all to see and especially so in type and deportment.

Perhaps also one could hope to see that horrible head flecking disappear, maybe only for a short time, after all this is not tolerated any where else in the world on the show bench.

Light Green from a Victorian stud – 2014 – No ticking / flecking. How wonderful

John Scoble
